

CAPABILITIES BRIEFING DOCUMENT

First Article Inspection Integrated Tool-set

Build an FAI that is Compliant – Every Time

AS9102 states : The FAI is a validation that the production build processes can create a set of conforming design characteristics for the product.

FAI ONLINE TOOL-SET ENHANCES THE INTEGRITY OF THE FIRST ARTICLE PROCESS

Verify has developed a web based, secure software tool that takes a comprehensive, concurrent approach to planning & producing, not just a compliant FAI, but helps to develop and ensure a capable process that makes an acceptable part.

END TO END AS9102 COMPLIANCE

- Our tool is an efficient, methodical program built with intuitive linkages to all the relevant competencies responsible for building the FAI.
- Process accessibility, revision control, workflows with gated reviews.
- All integrated from contract review to final inspection.
- Every contributor to the process is provided visibility into all aspects of AS9102, with guided decision flows to ensure compliance and concurrent buy offs through the process to eliminate mistakes.
- Proactive compliance – continuous improvement

FAI ONLINE TOOL-SET CAPABILITIES AND DELIVERABLES

Our **REQUIREMENTS WIZARD** is built to ensure compliance to the standard while reducing the opportunities for mistakes.

FAI DATA MANAGEMENT, retrieval of FAI records both internal and supplier is built into the tool for instant access reducing planning time.

Build Assembly FAIRS linked to details and sub assemblies – ability to **IMPORT CMM DATA** and **BALLOON DRAWINGS** to create FAIRS with visibility into advanced FAI METRICS

End to end compliance assurance resulting in -

- Customer Confidence
- Increased Quality Assurance
- Process and Part Traceability
- Red Flag Compliance Risk
- Basic Framework for APQP such as PFD, Preliminary Control Plan, MSA, Special Characteristics Matrix
- Better Delivery Times
- Reduced Planning Time resulting in Reduced Labor Costs
- Trend Analysis
- Integrated SIPOC

Verify has the tools, solutions, consulting services and training to enhance the integrity of your FAI process and reduce labor costs all with no additional infrastructure. Contact us at verifyglobal.com/contact to learn more.
